

WATER

Follow the simple steps below to help you customise your rain collector, and track your water harvest!

1

Find and clean a jar with a lid - maybe a jam or pickle jar?

2

Decorate your jar using waterproof materials such as marker pens and vinyl stickers.

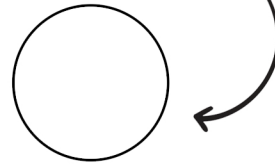

3

Put your jar outside on a flat surface, remove the lid and wait for the rain to fall!

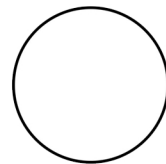

Turn your jar upside down and draw around the lid keeping the blue cloud in the centre. Now cut around the circle and glue this to the lid of your jar!

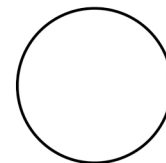

I USED MY RAINWATER TO:

WATER MY PLANTS

WASH MY VEG

WASH MY CAR

WATER HARVEST DIARY

Try tracking your rainfall harvest each day and note it down here or in your little book!

On Monday I harvested
.....ml of rainwater

On Tuesday I harvested
.....ml of rainwater

On Wednesday I harvested
.....ml of rainwater

On Thursday I harvested
.....ml of rainwater

On Friday I harvested
.....ml of rainwater

On Saturday I harvested
.....ml of rainwater

On Sunday I harvested
.....ml of rainwater
