

# ELDER THE ELF

## Puppet

Begin by cutting out your elf's body and wings, then gently fasten the wings with split pins so they can flutter! Once your elf is ready, mount it onto a straw and watch it take flight through the air! You might like to add colourful ribbons so your elf sparkles as it soars. Elder the Elf is full of winter wisdom and wants to share about living kindly with the world around us - so Scan the QR code to access the Learning Hub where you will also find a step-by-step video.
